News Notes From State Capital

TALLAHASSEE—As the Florida legislature moved through the fifth week of its nine-week session, there was little money in sight for increasing state spending and little inclination to provide it. The senate has passed an expansion of the 3 per cent sales tax law, to bring in an estimated \$17,500,000 more per year. This would be given to schools. But the bill still rests in the bosom of the house finance and taxation committee, whose chairman, conservative Elbert Stewart of Hendry county, has scarcely started hearings on it. The controlling group in the house is working night and day to pare present state spending by enough—possibly \$20,000,000 to finance common school expansion. If they can do that, it is believed the revision of the sales tax will be defeated, an appropriations bill calling for no new taxes produced, and then they will leave to the senate the decision of whether to spend more and tax more.

TALLAHASSEE—Governor Fuller Warren has advised Collier's Magazine that he will bring suit for libel against the publication unless it retracts an article entitled "Secret Mr. Big of Florida" published in the current edition. The impact of the article and the governor's reaction on the legislature is expected to be profound. At work is a house committee in-

vestigating connection between gamblers and public officials, under the chairmanship of James A. Haley, Sarasota county representative. Pending in the legislature are bills prohibiting ownership of controlling interests in more than one race track in Florida by any individual. Also going through the legislative mill is a series of bills aimed at bookmaking, illegal use of wire service and gambling in general.

TALLAHASSEE—Apparently settled in the 1951 legislature are such pre-session subjects as the following:

Voting by 18-year olds—they won't.

Abolishing the fish and game commission—they won't.

All women subject to jury duty—they won't be.

Taxing homesteads for schools—they will not be.

Unmasking the Ku Klux Klan—it will be.

Setting a maximum automobile speed limit—it won't be.

These and other less important subjects have been disposed of, either by defeat of bills—as the 18-year-old voting bill was killed in the senate—or by adverse committee action.

TALLAHASSEE—When Florida elects eight congressmen instead of six next year, the state probably will be divided into eight districts. Senator G. Warren Sanchez of Live Oak, chairman of a committee to bring peace to several warring factions on the redistricting front, reported success to the senate. The compromise bill will leave the present Bob Sikes third district pretty much as it is, create a new district out of counties between Tallahassee and Jacksonville, and another new one around Polk county and with some minor exceptions, making satisfactory changes for the other old districts. Senator Sanchez said he believes the committee version also will be acceptable in the house.

TALLAHASSEE—A spat of anti-newspaper legislation is dying out before committees which so far have shown a vigorous intention to defend freedom of the press—even though it occasionally hurts. A house committee has killed a memorial to ask congress to repeal the second class mailing privilege. Bills such as the proposed new juvenile court and civil defense measures have been changed to remove the possibility of hampering free newspaper and radio reporting. Still pending is an amendment to the sales tax revision which would tax newsprint. Also pending, without much support, is a bill to require all newspapers to local political advertising at the local rates, something

most of them already do. No newspaper protest has been filed against amendments to racing bills which would prohibit printing advance information on horse and dog races, such as selections, weights, scratches, jockeys, etc. Also hanging fire in committee at week's end was a bill to require newspapers to provide free space for answers to any editorial criticism of public officials.

TALLAHASSEE—Senator Johnnie Wright of DeFuniak Springs, youngest war veteran of the senate, has criticized committees of both houses for what he called "intolerable delay" in considering state civilian defense matters. Civil defense bills have been sent to subcommittee for further study. Pointing to the fact that in West Florida, Eglin Field, Tyndall Field and the great naval air station at Pensacola make this section of the state a prime target for an enemy attack, Senator Wright said the tardiness of this legislature to provide adequately for the safety of the civilians may lead to one of the great tragedies of these times.

"Our experience in the last two years showed that nations were defeated because their civil populations were not prepared," said Wright. "Florida has learned nothing, if we are to judge by its legislature, from the lessons of those wars. Now, at a time when even our armies are in retreat, legislative thinking along defense lines has pushed this vital problem of survival into the back-ground. I think it is the most important subject before this legislature."

TALLAHASSEE—After several days of intermittent debate, the Florida senate has approved a house bill to put regulation of privately owned electric and gas companies under the Florida Railroad and Public Utilities Commission. The bill was sponsored by Rep. Butler Dowda (Putnam), George Tapper (Gulf) and James Sweeney (Volusia) in the house. Efforts of Senator Henry S. Baynard of St. Petersburg to altar the bill by increasing the number of commissioners from three to five members, and to impose additional

taxes on the utilities to pay for regulation, were defeated.

Scholarship Fund May Get Day's Receipts

MIAMI—Hialeah track has asked for an extra day of horse racing again next winter for the state scholarship fund. General Manager Sam H. McCormick reports that Hialeah has filed for 41 days of racing for the 1952 season, January 17 through March 4.

Hialeah asked for an extra day for the scholarship fund last year only to be turned down by the State Racing Commission.

Funds from this extra day of racing at the Florida tracks are used for scholarships to the University of Florida and other state institutions.

In spite of floods and cold weather that hampered operations, the United States Sugar Corporation at Clewiston reports that the season just closed was one of the best in the history of sugar production in the Everglades.

FLORIDA NEARING THE HALF-MILLION TELEPHONE MARK

FLORIDA'S 470,000th TELEPHONE: Manager J. P. Evans has just presented it to Mrs. O. H. Thornburg following installation in her home at 339 S. Palmerto Avenue, Daytona Beach. Little Miss Frances Thornburg appeared to think well of having a telephone, too.

Bell telephones serving Florida are approaching the half-million mark. The 470,000th was installed a few days ago in the home of Mr. and Mrs. O. H. Thornburg in Daytona Beach.

That telephone will mean a lot to the Thornburgs and it will mean a lot to their friends who want to keep in touch with them.

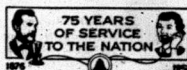

That's always true when a new telephone goes in: there are other people whose telephones become more useful and valuable because another friend, relative or business associate has gotten one. Yes, it's the other fellow's telephone that makes yours valuable, and there are now twice as many Floridians with telephones as there were just five years ago.

It took 52 years for Florida to reach her first 100,000 telephones, 8 years to get her second, 4 years for the third and 2 for the fourth. That gives you an idea of Florida's growth and its demand for telephones.

To provide for the 215,735 telephones added during the past 5 years, it was necessary to construct 53 new buildings and additions, and to install vast quantities of central office equipment, cable and other plant facilities.

In spite of those 5 record years of expansion there's still a big telephone job to do in Florida. It took \$105,000,000 worth of expansion during the past five years, and it will take a financially sound Telephone Company to continue contributing its full share to the growth and progress of the State.

Homesteading State Lands Bill Killed In State Senate

TALLAHASSEE — The Florida senate Monday sustained Gov. Fuller Warren's veto of a 1949 legislative act to permit homesteading of state lands in Palm Beach, Escambia and Polk counties by veterans.

The vote was 27 to 9. Last week the house unanimously overrode the governor's veto. The senate's action Monday has the effect of killing the bill.

Sen. Russell Morrow of West Palm Beach said the bill pertained almost entirely to Palm Beach county. He said the act had the purpose of making available to veterans lands which in the past only "corporations and privileged groups" could get their hands on.

He said among the lands were those which some groups had from the state for as little as \$15 an acre and then released for \$35 an acre.

Morrow said it was "not right for these lands to be tied up."

Opponents of the 1949 bill said it was too loosely drawn. Sen. Newman Brackin of Crestview also argued "the state of Florida should enjoy the proceeds from these public lands."

Brackin added that homesteading of the lands would cost the state a lot of money.

The senate move in approving the veto came after Fred Elliott, secretary of the internal improvement board, appealed to the senate in a statement to uphold Warren's veto action.

Elliott said the system proposed in the bill of permitting veterans to homestead the lands would help a few veterans but discriminate against a vast majority.

WE ARE IN STEP WITH THE TIMES

It is no small task to record each week the happenings of any community. We here at The Everglades News are happy that our assignments bring us face to face with hundreds of folks of our community each week. We strive to KEEP IN STEP with what is going on here in this vast agricultural area on the eastern shore of Lake Okechobee. It gives us a great deal of pleasure to record for you weekly (and for posterity) the happenings of a growing section of Florida. Future generations will thrill when they read of the pioneering efforts of you and your loved ones in establishing a great agricultural empire.

KEEPING IN STEP with the times means that we must be on our toes day in and day out—making an earnest effort to record those things which are interesting, historical, progressive and at times amusing. All such happenings go toward making up a worthwhile and happy community where living is just a mite better than in thousands of other places in America—where your neighbor's smile is just a mite friendlier than is witnessed elsewhere in this great land of ours.

Here In Our Newspaper

Office We've Spent

25 Years Doing One Thing Well

Each week for more than a quarter of a century this Newspaper has reached its readers each Friday morning with full and complete news coverage of the Lake Okechobee Farm Area. Bringing out The Everglades News each week—on schedule—has grown to be a habit with those of us who produce it. Not once during the 25 years of its existence has this newspaper missed a publication day. Through floods, hurricanes and other adverse antics of nature we have managed to make the deadline. It has been no small accomplishment.

Christian Science Group Of Canal Point

That punishment inevitably accompanies or follows sin is stressed in the Lesson-Sermon entitled "EVERLASTING PUNISHMENT" which will be read in all Christian Science churches next Sunday.

Ezekiel's ringing words, "Repent, and turn yourselves from all your transgressions; so iniquity shall not be your ruin" (Ezek. 18: 30), constitute the Golden Text.

Bible passages include the following from Ezekiel: "Have I any pleasure at all that the wicked should die? saith the Lord God: and not that he should return from his ways, and live?" (Ezek. 18: 23).

Among the correlative readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is this reassuring statement: "It is error to suffer for aught but your own sins.

Christ, or Truth, will destroy all other supposed suffering, and real suffering for your own sins will cease in proportion as the sin ceases" (p. 391).

Youngsters Hurt When Cars Smash

Edgar Young, nine-year-old son of Mr. and Mrs. R. Young, suffered a fractured right shoulder bone and severe bruises when he was thrown into and broke a windshield in a car accident on East Main St., Pahokee, Saturday afternoon. Nancy Thomas, nine-year-old daughter of Mr. and Mrs. J. V. Thomas, who was also an occupant of the car, received bruises and lacerations on the face. Both children were treated at the local hospital.

The accident occurred when Mrs. Young, who was taking a group of children to the swimming pool in a 1950 Chevrolet sedan, collided with a car driven by Paul Hughes when it backed suddenly out of a parking space with out sufficient warning, according to Police Chief Leon Guthrie who investigated. The accident happened in front of the Pahokee Hotel. Hughes was released on bond.

Freshman Runner Sets Suncoast Record

Try this on your stereoscope!

WHEN THIS "VIEWER" was in the parlor, folks used to look at pictures like these.

They'd spend many an hour gazing wistfully at scenes of places they'd like to visit, things they'd like to do.

But, today, there's an invention that beats those stereoscopic pictures all hollow. No—it isn't television.

It's the Payroll Savings Plan—an automatic

method of saving that all but puts you on that liner and says "bon voyage."

So simple, so painless, so sure—the Payroll Savings Plan sets aside a small part of your earnings each and every pay day, puts it in United States Savings Bonds.

And these bonds grow and GROW. In ten short years they pay you back \$4 for every \$3 you put in today.

A self-fattening investment—guaranteed by Uncle Sam—that will let you do things for your family and for yourself that you could never do without such a convenient plan.

And, if you're not on a payroll, there's the equally convenient, equally profitable Bond-A-Month Plan at your bank.

No matter how you look at them, U. S. Savings Bonds help to picture a bright, happy future!

Automatic saving is sure saving—U. S. Savings Bonds

I'll match my Dodge

Value and Dependability

—says MICHAEL OPPENHEIM

"Sure, I've owned and driven other make cars," says Michael Oppenheim, Bellerose, N.Y. "But since 1941 my cars have all been Dodges. I know how dependable Dodge cars are, how little they cost to run."

You could pay up to \$1,000 more and not get all the extra room, comfort and rugged dependability of Dodge

Compare what Dodge gives you . . . with what other cars offer. You'll understand why Dodge owners say they'll match Dodge with any car on the road.

Take riding comfort for example. You could pay far more for a car and still not get the almost unbelievable smoothness of the new Oriflow ride. Even

on roughest roads there's no wheel "hop" or bounce.

You get the relaxing comfort of extra head room, leg room and shoulder room . . . the safety of "Watchtower" visibility. Dodge Gyro-Matic—the lowest priced automatic transmission—lets you drive without shifting. See and drive Dodge today.
